

Jr Drip Tape Digger

TD09-001 Jr Digger

This equipment has been designed for drip tape users who need to remove buried tape from their field for disposal. The heavy-duty design provides long life under adverse field conditions.

Equipped with a standard undercutter this machine will dig to a maximum depth of 10-inches and wind up tape into a dense coil for easy collection.

- Able to extract to a maximum depth of 10-inches
- Includes 1 undercutters/lifters
- Operator control of tape tension and speed
- Standard unit will retrieve 1 row
- Additional row spacing and number of lines retrieved available upon request
- Powered by tractor auxiliary hydraulics
- Reduces hand labor
- Helps eliminate tape trash in the field
